## MARKING GUIDELINES

## MARKS: 300

## MARKING PRINCIPLES:

- 1. Unless otherwise stated in the marking guideline, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
- 2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
- 3. Full marks for correct answer. If answer incorrect, mark the workings provided.
- 4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
- 5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or sign or bracket is provided, assume that the figure is positive.
- 6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
- 7. This memorandum is not for public distribution, as certain items might imply incorrect treatment. The adjustments made are due to nuances in certain questions.
- 8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
- 9. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
- 10. 'One part correct' means 'operation and one part correct'. Where method marks are awarded for one part correct, the marker must inspect the reasonableness of the answer and at least one part must be correct before awarding the mark. If a figure has earned a method-mark, this will be regarded as 'one part correct'.
- 11. In calculations, do not award marks for workings if numerator and denominator are swapped this also applies to ratios.
- 12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a ⊠.
- 13. Be aware of candidates who provide valid alternatives beyond the marking guideline.
- 14. Codes: f = foreign item; p = placement/presentation.

## **1.2** The internal auditor is concerned about the management of cash.

# 1.2.1 Explain TWO different problems to justify her concern. Quote figures.

Any TWO valid responses: Problem  $\sqrt{}$  Theft  $\sqrt{}$  Rolling Figure or date  $\sqrt{}$   $\sqrt{}$  Do not accept incorrect recording of a cheque; alternative terms may be used

**Problems:** Inspect if two aspects are included in one explanation

- <u>Theft/Fraud/Internal control</u> measures are lacking (R25 000 missing)
   <u>Accept date in lieu of figures</u>
- <u>Rolling / late depositing of cash</u>: R12 675 received on 10 March and deposited only on 28 April 2018 OR R10 000 was received on 20 April 2018 and is still outstanding

## 1.2.2 Give advice (TWO points) on how such problems can be avoided in future.

Any two valid responses: ✓ ✓

- Create a policy for regular, daily depositing
- Request notification from bank for all transactions (sms)
- Division of duties / one person serves as a check on another
- Check promptly to bank statements
- Use a security company to collect cash
- Ask debtors to pay by EFT Accept use EFT
- Background checks / police clearance on staff

## 1.3 Explain TWO benefits of using the electronic funds transfer (EFT) system rather than cheques for direct payments to suppliers.

Any TWO valid responses VV VV Part-marks for unclear/incomplete explanations

- Cheaper than cheque payments or debit orders (only data costs)
- No holding period as for cheques before money is available
- Less fraud and theft than with cheques / eliminate risks with lost / stolen / forged / dishonoured cheques / greater security
   Accept security
- Payees are happy because funds can be transferred more quickly at any time of the day or night (not restricted by banking hours)
- Simplifies bookkeeping and efficiency / saves time / transactions quicker / proof of payment immediate
- Save on bank charges
